

SUBJECT INDEX

Volume 26, Number 1

Authors	Topic
Chiuhsiang Joe Lin, Chi-No Liu, Jun-Lung Hwang and Wei-Jung Shiang	Designing a Handled Trackball for Seated Computer Tasks
Tai-Chang Hsia, Shui-Chuan Chen and Kun-Sheng Chen	Enhancement of Service Quality in Internet-Marketing Through Application of the Six Sigma Process
Chi-Ling Huang, Chih-Wei Lu, Mei-Lan Lo and Pet-Hsun Lin	Discomfort after Playing Drumming Games
Shu-Chu Liu and Chun-Hui Liu	Simultaneous Pricing, Due-Date Setting and Scheduling for Make-To-Order Firms with Contingent Orders
Wen-Pai Wang and Hwai-En Tseng	Complexity Estimation for Genetic Assembly Sequence Planning
Chau-Chen Torng, Pei-Hsi Lee and Chun-Chieh Tseng	An Economic Design of Tukey's Control Chart
Ying-Mei Tu and Hsin-Nan Chen	Tool Portfolio Planning in the Back-End Process of Wafer Fabrication with Sequential Time Constraints
Tien-Yu Lin and Hong-Fwu Yu	An Optimal Policy for CSP-1 with Inspection Errors and Return Cost

Volume 26, Number 2

Authors	Topic
Jing-Rung Yu, Jui-Mei Chang, Shih-Sheng Yu and Her-Jiun Sheu	A Linear Multiple Objective Programming for Assortment and Packing Problems
He-Xing Wang and Zhen-Hua Che	Applying and Comparing Four Different PSO Approaches in Integrated Problem of Product Change Planning, Part Supplier Selection, and Quantity Allocation
Yufang Chiu and Ching-Yang Chang	Optimal JIT Production and Delivery Lot Size Model that Considers Vendor Reworking Process and Variable Setup Cost
Tien-Hui Chen, Chiao-Pin Bao and Shioh-Yun Chang	Another View of Efficiency Improvement in Data Envelopment Analysis
Yi-Feng Hung, Juei-Yang Lin and Wei-Chih Chen	Enhanced Parallel Tabu Search with the Memory of Local Optima
Chin-Chun Wu, Chikong Huang, Yu-Chang Lin and Chao-Yu Chou	An Empirical Study on the Determination of Price, Warranty Length and Production Rate in the Static Sales Market
Ta-Hui Yang, Rong-Tsu Wang and Chih-Huan Tseng	The Application of Goal Programming to the Scheduling Problem of the Professional Baseball League
Ching-Feng Wen, Yan-Kuen Wu and Yung-Yih Lur	A Recurrence Method for Simple Continuous Linear Programming Problems

Volume 26, Number 3

Authors	Topic
Chang-Ching Lin and Yi-Te Chang	The Analysis of an Extended Average Cost Inventory Model for Reverse Logistic Planning
Wenyih Lee and Sheng-Pen Wang	Lot Size Decisions in a Three-level Supply Chain with Freight Rate Discounts
Jun Li and Jiongwei Mao	An Inventory Model of Perishable Item with Two Types of Retailers
Ye-Sho Chen and Yung-Hsiu Lin	Supply Chain Models in Senior Care Management
Chir-Ho Chang, Ro-Yu Wu and Jin-Ling Lin	A Dual Route Planning for Unknown Scaled Emergency Management
Chun-Hsien Liu	Supply Chain Collaboration During New Product Development: Asian Perspectives
Ru-Jen Lin	Supplier Integration and Time-based Capabilities: an Empirical Study

Volume 26, Number 4

Authors	Topic
Hsi-Mei Hsu, Tai-Sheng Su, Muh-Cherng Wu and Liang-Chuan Huang	A Multiple Lot-sizing Decision for Two-stage Systems with Interrupted Geometric Yield and Non-rigid Demand
Ting-Yu Chen and Cing-Chan Chou	Fuzzy Automata with Atanassov's Intuitionistic Fuzzy Sets and Their Applications to Product Involvement
Shuang-Gen Liu, Yu-Pu Hu, Hai-Ying Ni, Wen-Sheng Xu and Yun-Yan Liao	A Fast and Secure Elliptic Curve Scalar Multiplication Algorithm over $GF(p^m)$
Liang-Tu Chen and Mei-Chen Chien	Coordinated Pricing and Base-stock Policies for an Item with Price and Stock-dependent Demand Subject to Decay and Fixed Lifetime
Te-Hsiu Sun	Stereo Matching Using Synchronous Hopfield Neural Network
Hsiang-Ru Chen, Yunshi Liu, Bor-Wen Cheng and Hui-Ching Chiu	A Study of Human Resource Management on Organization Commitment and Organizational Citizenship Behavior: a Comparative Case for Cross-strait Employees of a Taiwanese Paper Company
Fong-Fan Wang	Framework for Generic Inventory Queueing Systems
Ali Azadeh Mona Anvari	Implementation of Multivariate Methods as Decision Making Models for Optimization of Operator Allocation by Computer Simulation in CMS

Volume 26, Number 5

Authors	Topic
Kuan-Yu Hu and Tian-Sheng Chang	An Innovative Logistics Model for Multi-channel Retailing
Fengyi Lin, Chihyang Chang and Soushan Wu	A Study on the Relationship between Related Party Transactions and Monthly Sales in Taiwan's Publicly Issued Companies
She-I Chang, Celeste See-Pui, Ng Ya-Nan Shih and Guo-Yao Hung	A Drug Safety Risk Management and Assessment Mechanism for Community Pharmacy in Taiwan
Chi Chiang, Chih-Cheng Lee and Gwo-Hshiung Tzeng	A Non-additive Model for the Evaluation of Portal Website Service Quality
Charles V. Trappey, Amy J.C. Trappey, Ai-Che Chang and Ashley Y.L. Huang	The Analysis of Customer Service Choices and Promotion Preferences Using Hierarchical Clustering
Hsin-Pin Fu, Tien-Hsiang Chang, Sheng-Wei Lin and Shiu-Mei Cheng	Impact Factors Analysis of Customers Ordering Through Suppliers' Self-constructed E-platforms
Chen-Tung Chen and Pei-Yun Chen	An Evaluation Model of Innovation Performance Based on Fuzzy Interval Linguistic Variables
Woo-Tsong Lin, Huei-Ching Lee and Ya-Hui Lee	A Decision Model for Reverse Logistics Service Providers in Determining Robust Optimal Processing Quantities of Returned Products
Yu-Jen Chang and Ming-Jong Yao	A Genetic Algorithm for Solving the Economic Lott Scheduling Problem with Reworks
Chui-Yu Chiu and I-Ting Kuo	Applying Honey-bee Mating Optimization and Particle Swarm Optimization for Clustering Problems

Volume 26, Number 6

Authors	Topic
Swei-Pi Wu	Adjustment Period Effects on Psychophysical Lifting Capacity for Female Participants
Chuan-Wen Chiang	Ant Colony Optimization for VLSI Floorplanning with Clustering Constraints
Kuo-Wei Lee and Ying-Chu Lee	A Design of Multi-functional Mouse Wheel and an Assessment of User Acceptance
Der-Baau Perng, Chaur-Hsiang Chang and Pei-Yeh Chang	Developing an Elliptic Shape Model for Analyzing the Local Positional Deformity of the Infant Head
Ting-Yu Chen and Chia-Hang Li	A Comparative Analysis of Objective Weighting Methods with Intuitionistic Fuzzy Entropy Measures
Tsung-Nan Tsai	Modeling and Optimization of Reflow Thermal Profiling Operation: a Comparative Study
Yen-Hui Lin and Chih-Yong Chen	Effects of Syringe Size and Hand Condition on Thumb Loading and Muscle Activity During Pipetting Tasks
Tsu-Kuang Yang, Whey-Ming Song and Ming-Chang Chih	Revisit the Dynamic-batch-means Estimator
